Subject: Cabinet Council on Commerce and Trade
Working Group on Space

The Working Group will coordinate the implementation of the decisions made by the President on July 18, 1984. In addition, it will advise the Cabinet Council on Commerce and Trade on such matters as:

- o New proposals for a commercial space policy.
- o Further actions the federal government could take to facilitate private sector investment in space commercialization, such as economic, regulatory, and research and development and procurement initiatives.
- o The implications of other actions the federal government might take which could affect the commercial development of space.

Because of the significance of this Working Group, I recommend that your designee be someone with direct access to you and who can speak for you on these issues.
